PRESS RELEASE

Engineering & Terminal Services, L.P. Announces the Formation of a Subsidiary in the U.S. Virgin Islands

Houston, July 19, 2019: Engineering & Terminal Services, L.P. (E&TS) today announced the formation of its wholly-owned subsidiary, ENGINEERING & TERMINAL SERVICES, LLC IN THE U.S. Virgin Islands and based in St. Thomas for the purpose of expanding its service offerings and better serve its clients.

Headquartered in Houston, TX, Engineering & Terminal Services, L.P. is a single-source solution engineering consultancy firms, with a multidisciplinary team that include Process, Civil, Structural, Mechanical and I&E Controls covering all aspects of Terminal Transfer Operations, Power and Transmission. E&TS Professional Engineering Team is supported by a solid staff of design and drafting professionals, construction and project management teams.

As consultants and complete terminal solution providers, E&TS stands alone in our engineering and systems design capabilities with over 100 years of combined experience with our core professional personnel. Our service offering includes: Engineering Consulting Services, Feasibility Studies and Analysis, Complete Terminal and Tank Farms Systems, Design and Start Up Teams, Design and Drafting Services, Construction Management, Inspection Services and Engineering Services. E&TS' project experience extends beyond the U.S. as we have worked in projects in Mexico, El Salvador, Nicaragua, Honduras, Panama, Puerto Rico, Colombia and Peru.
